

ERGONOMIC OFFICE CHAIR

Let you enjoy office life

THREE VIEW

PRODUCT FEATURES

1. The backrest is made of new PP fiber, one-piece injection molding, with a thickness of 7mm. There are wings on both sides of the backrest, which is beautiful and can relieve hand fatigue. The surface is waterproof and easy to clean, comfortable to sit on, and durable.

2. The footrest is made of flat tube, with a wall thickness of 1.8mm, four-legged, and the surface is pickled, electroplated or electrostatically sprayed. With PA foot pads, the overall stability is high, the backrest tension is 116KG, and the load-bearing capacity is 180KG.
